

Summit Sun

"Let us Shine"

Dear Parents/Caregivers and Community Members,

As the term comes to an end I would once again like to take this opportunity to celebrate all of the wonderful things we were able to achieve;

Students have been thoroughly engaged in learning and I was thrilled to witness regular student led learning including the 4-6 Ancient Egypt Presentation Night, Corridor Art and Wood work.

Student Leadership and Agency: Student led assemblies, parent & principal tours, lunch time games and peer mediators

School Promotional Video: We have successfully launched our product to an ever-growing audience via our website, local kindergartens and other forms of media.

Connection with the Community Centre and local Kindergartens: Linking us to the broader community through a series of promotional and voluntary activities including being part of their Open Day on 26th August

The importance of Mindsets: Fabulous results are coming for our students who have participated in PAT, NAPLAN, and Phonics screening testing. Well done!

Parents and Friends: Fabulous school fundraising and community social events including; The Lane Wine Drive, Adult's Only Summit Disco, and support of the Student School Disco

Music Ensemble Night: A tremendous showcase of our students' musical talents

Book Week: Author visits, morning tea, book sales, assembly and dress up parade. Thank you Sally, staff and our community for your generosity and hard work!

Science Week: A special presentation from former parent Bettina Smith who shared her expertise in glass blowing as part of our National Science Week celebrations.

SSO Week: Our SRC students organised a special surprise Assembly acknowledging the hard work of our fabulous team!

Reader's Cup: 2nd place success for our team who competed in the challenge at Uraidla PS

Tournament of Minds: Year 6 students representing our school in a State-wide Problem Solving Competition in the STEM category. Amazing work!

Year 4-6 Bike Ride: 31kms of rain soaked fun. Thank you Mr Costar and to those families assisting with the car ride home!

SAPSASA Football Lighting Carnival: Another awesome day out for our undefeated Year 4-6 team.

SANFL Footy Clinics: Ran for all classes during the first 5 weeks. Loads of fun!

Kids Disco: A highly successful and fun event filled with glowing colour and wonderful memories. Thank you to our OSHC Directors, Parents and Friends Committee and staff for their work.

OSHC: An amazing team who provide so many wonderful experiences for our students.

Happy Holidays: Please take the time to enjoy the upcoming break and hopefully some sunshine. We will see you all again on Tuesday 18th after the Pupil Free Day.

This week the 4/5/6 class had our Ancient Egyptian Presentation Night. We have been working our way through a massive project and researching about many different topics on Egypt. We then published our learning in amazing formats and also created an artefact which had to have something to do with our investigations. Last Tuesday evening we had to prepare a speech and present our work to a group of our classmates and parents, which was a bit nerve-wracking but we all did it with great success. Our final masterpieces are now on display in the corridor, so please take the time to come and have a look.

Norton Summit Primary School Out of School Hours Care (OSHC)

Term 4 Program 2022

Tournament of Minds Success

Congratulations to all of our Year 6 students who competed in the recent Tournament of Minds Problem Solving Competition State Finals held on Sunday 11TH September at Adelaide High School.

We entered 2 Teams in the STEM category where each team had 6 weeks to independently solve the long-term problem, 'The Gold Rush' and present their solution to a judging panel and a live audience inside 10 minutes.

Each team also competed in a spontaneous challenge designed to test their group's teamwork and problem-solving skills under timed pressure. Our students demonstrated this process during our last assembly.

Both teams scored really well and finished 7 out of 13 teams. Congratulations!

Year 4-6 Bike Ride

Congratulations to all of our year 4-6 students who participated in Mr Costar's Annual Linear Park bike ride from Athelstone to Henley. Despite the weather, it was an amazing day filled with 31 kilometres of fun and adventure. Thanks to all the parents who assisted with the well-deserved ride back to school afterwards.

SRC Planting with our Community

Our SRC have been very busy working with members of local community. We have begun our first phase of planting native plants along our stairs and landscape in the lower adventure play area to assist with soil erosion and local wildlife. Many thanks to both Val from the Community Centre and Jo for assisting with the event.

Parents and Friends Disco

What a night we had on Saturday at the first ever Summit Disco!!

The weather was blustery, but we put on a great party and danced up a storm to rival the one outside.

Thanks to all those who came to support this major P&F fundraiser, over \$1200 was made which will go into projects nominated by our wonderful students.

If you missed this fantastic event- make sure you get along to the next one!
